STAT

FBIS-0042/87  
24 February 1987

MEMORANDUM FOR: Associate Deputy Director for Intelligence  
THROUGH: Deputy Director for Science and Technology  
FROM: [redacted] Director, Foreign Broadcast Information Service  
SUBJECT: Request to Publish Exceptional Analyst Paper

STAT

1. Attached is an unclassified paper, Japanese High-Tech Information: A Beckoning Market, authored by FBIS employee [redacted] during his recent tenure as a DCI Exceptional Analyst and published in some 200 copies by OTE.

STAT  
SIAT

2. [redacted] has been asked by the National Technical Information Service of the Department of Commerce for permission to place the paper on sale to the public. Some others in the S&T information community have advised him to place the paper with a commercial publisher. Both sides feel that the study is of sufficient significance to merit wider distribution to American scientists and businesses.

STAT

3. [redacted] own preference is to have it published commercially. I would be grateful for your review and recommendation and if possible, a clearance for outside publication. He is aware that any royalties derived from commercial publication will have to be turned over to the U.S. Government.
